Questions?

Ovengold turkey breast, pepper jack cheese, flamin hot cheetos, jalapeno

That **Hot Poppa** sandwich is even better than it's rumored to be. How do they cut the **Flamin' Hot Gheetos** so finely? The world may never know.

WHY *postcard marketing?*

The Internet is "COOL," but postcards are "TRIED-AND-TRUE" – Even in this Internet-smitten age, postcard marketing is a powerful medium for the small business owner. Unlike with email marketing or community publications, you can easily reach and inform the majority of your potential customers in your neighborhood.

Postcards are economical – the "superheroes" of small business

Postcards are more affordable than most other forms of marketing. For just a small investment, well designed postcards can provide a **BIG BIG** return.

Need a QUICK increase in revenue? – *postcards are fast and easy*

Their simple format – with no envelope or other accompanying pieces – makes postcards one of the easiest forms of direct mail to design, print, and get out the door fast.
